Experience

Frontend Developer

[Say Eagle](#)

Onsite - PAK 12/2022 - Present

- Led the development and launch of web applications using **React.js**, resulting in highly engaging user experiences.
- Integrated **Node.js** with **Firebase Functions**, ensuring efficient and serverless **back-end** services.
- Managed real-time data using Firebase's Cloud Firestore, enhancing **data security** and user engagement.
- Designed, tested, and optimized **serverless APIs** with Firebase Functions, delivering consistent and reliable responses.
- Collaborated effectively with cross-functional teams to meet project milestones and deliver high-quality applications.

Junior Frontend Developer

[Tungsten Software Services](#)

Onsite - PAK 02/2022 - 12/2022

- Acquired 10 months of full-time experience in web development, with a focus on **React.js**, **JavaScript**, **HTML**, and **CSS**, demonstrating dedication and commitment to building foundational skills.
- Demonstrated proficiency in working with **REST APIs**, showcasing the ability to integrate data from external sources into web applications.
- Collaborated effectively with colleagues using **GitHub**, contributing to a team-oriented and version-controlled development environment.

Education

Bachelor of Science in Information Technology

[Bahria University](#)

Islamabad, Pakistan 09/2016 - 07/2020

- Undergraduate Coursework: Algorithms/Data Structures; Databases; Programming Languages; Software Architecture; Entrepreneurship; Calculus; Operating Systems.

Projects

- **Definitely You:** A React-based e-commerce website incorporating all the vital functionalities of a comprehensive online shopping system. Link to [Github](#)
- **Shoe Store:** A React.js powered e-commerce store created with the use of useReducer hook, integrating fundamental functionalities of an e-commerce platform. Link to [Github](#)
- **Stepper Form:** A dynamic stepper form built with React.js, where the steps change based on the active state. Link to [Github](#)
- **Shining Star:** An Android application developed as a final year project, integrating the requirements of a childcare management system. The application caters to parents who want to stay connected with their children while at work, providing childcare management features and facilitating information sharing between caregivers and parents.
